clickfree™
Automatic Backup

## Setting up BackupLink™

BackupLink™ is installed automatically when using C2N for backup. Just repeat steps 1, 2, and 3 for each computer you want to keep backed up, using BackupLink™.

**Repeat steps 1, 2, 3 for each computer**

## Using BackupLink™

To use BackupLink™, connect the C2N to any computer in the network (this computer must be on for BackupLink™ to work). All computers that have been set up will automatically schedule and automatically run backups.

## To access BackupLink™

Click

## Restoring with Clickfree

Plug in C2N to your computer. When Clickfree starts and you see the Countdown, click on the **Restore/Transfer** button at the bottom center of the page, Choose either:

- Quick Restore to restore all of the categories you have checked or
- Advanced Restore to select individual folders or files to restore

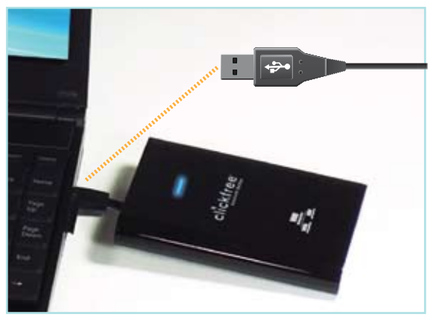
# Quick Start Guide

Rev 17

## Backing up with Clickfree

### 1 Plug in to your computer



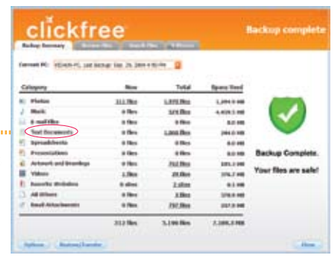
### 2 Wait 60s for backup to start

60 seconds

### 3 Backup Complete

Your first backup may take a few hours if you have a lot of files. When backup is complete, review the summary.

Click
For More Details



You can click on a category to view the files on your backup drive.

### Mac

Click

### Windows® Vista & 7

1. Check
2. Click

### Troubleshooting

**Didn't start automatically?**

1. Try unplugging Clickfree and plugging it back in.

**Still didn't start?**

If Clickfree hasn't started automatically we apologize but there must be something on your computer that is blocking Clickfree. We have a tool that should resolve this problem, please follow these steps.

1. Plug in Clickfree C2N to your computer.
2. Click on the Windows **Start** button, click **"My Computer"** (Windows XP & 2000) or **"Computer"** (Windows Vista, 7).
3. Locate **"ClickFree_System".** Right click on **"ClickFree_System"** and select **"Explore"**.
4. Double click **"FixMyClickFreeBackup"**. This should repair your problem.

If you have any trouble with this, please contact our customer care team who will be glad to help you get everything working properly.
